Dear Peter Bradley :

Sorry, I could not drive to Albany last Friday because of snow warning. I hope, my cancellation notice reached you on time.

Due to the intercession of ~~House and Connor~~ Connor I was able to come back to New York after two and half year's absence... and it was a very good season. In Everson Museum 4000 people jammed the last two days (week end). Museum of Modern Art will show the video-film (collaboration with Jud Yalkut) on April 29th... and through Ralph Hocking's generous co-operation we are able to continue the costly R&D for the phase II of video synthesizer development, which will directly benefit both WNET and WGBH(Boston), besides that we will have the best Video-synthesizer at Binghamton.

with thanks

cc: Connor, Hocking.
